SUMMARY

Full-Stack Developer and Data Science Enthusiast with experience in React, JavaScript, Python, and SQL. Skilled in building responsive web applications and data-driven solutions, with a strong problem-solving mindset and eagerness to learn and contribute to real-world projects.

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Responsive Design

Backend & Database: Node.js, MongoDB, MySQL

Data Science: Python, ML, Excel, Data Analysis

Tools: Git, GitHub, VS Code

EDUCATION

BACHELOR OF ENGINEERING: INFORMATION TECHNOLOGY

Expected in 2027

LDRP INSTITUTE OF TECHNOLOGY AND RESEARCH, Sector-15, LDRP-ITR, Gandhinagar

CGPA: 8.75/10 – June 2026 (Present)

- **Completed an Advanced Course on Green Skills and AI** (Skills4Future Program, Dec); learned how to use Machine Learning to solve environmental problems and worked on real-life projects.
- **Worked on hands-on Machine Learning projects** and learned how to use AI to create eco-friendly and sustainable solutions.
- **Learned how to use no-code AI tools**, which allow for building and launching AI models quickly without needing to write code.
- **Competed in the Smart India Hackathon 2024** as a member of Team 1ZERO, working with others to find creative ways to solve problems.

CERTIFICATIONS

Certificate of Completion - Advanced Course on Green Skills and Artificial Intelligence under the Skills4Future Program.

Internship Completion Certificate: Data Science Internship at Oasis Infobyte.

ACTIVITIES

- Served as Decoration Committee Coordinator in the College Annual Tech Event.
- Managed the technical setup and organization for events, including sound, video, and equipment. I made sure everything was ready and running smoothly, so the sessions were professional and well-organized.

PROJECTS

- **Job Recommendation Platform**
Built a full-stack web application using React, Node.js, MongoDB, KNN for skill matching and REST APIs with authentication, role-based dashboards, and real-time chat features.
Tech Stack: React, JavaScript, Machine Learning, MogoDB
- **Crop Recommendation Platform**
Developed a full-stack application with TypeScript, Supabase, and MongoDB, integrating weather APIs and multilingual support for an enhanced user experience.
Tech Stack: React, TypeScript, PostgreSQL, Gemini AI
- **Product Landing Page**
Created a fully responsive product landing page with modern UI, smooth animations, and mobile-first design.
